My role at PMC

I am part of the Risk Management team in the Americas. As well as our U.S. and Canadian clients, I also spend a lot of time working with clients in the South America region.

A typical day

Tracking market dynamics in Interest Rate, Foreign Exchange, and Commodities while discussing with clients how they should optimally hedge against financial market risks.

What I like best about PMC

The dynamic environment that we have as a tech-enabled advisory firm. We work with some of the largest companies and asset managers in the world to solve their complex risk management and hedging challenges. It's never boring!

How I spend my spare time

I love spending quality time with my wife and young daughter. When at home I enjoy cooking, drinking wine and listening to house music. Then I have to go running to burn off those calories from the pasta and wine!
