

STEVEN POLAK

Team: Operational Treasury

Location: New York

Contact: steven.polak@pmctreasury.com

My role at PMC

As a Senior Treasury Consultant for PMC, my role is to partner with our clients to understand how address challenges with client's Treasury and make their operations best-in-class and help plan and implement key initiatives for their organization.

A typical day

Execution on current project initiatives and constant communication with our clients and their constituents on progress. As with all things Treasury, it is a fluid environment, so keeping close to our clients, their bankers, and vendors is critical to maintain the success in our projects we engage on.

What I like best about PMC

The experience of the people I work with and the range of project work. Whether it is in our Operational Treasury teams or Risk Management teams, it has been an excellent work environment to both share experiences and learn from others in the group.

How I spend my spare time

Hiking! Have always appreciated my time outdoors and continue to find new places and adventures. When not hiking, I enjoy playing tennis, but appreciate it better when people do not hit to my backhand.

Get in touch with me

I'd be happy to discuss more about life at PMC and the breadth of work we do for our clients. We are growing rapidly and there is so much opportunity so, if you would like to lean more, then please get in touch!
